

THE POWER OF DIRECT SELLING DURING TOUGH ECONOMICAL TIMES By: Jennifer Zoller

Direct Selling is a recession-proof industry that tends to grow rapidly under turbulent economical circumstances. Now is the best time to start your home-based business with TIENS! Direct Selling continues to offer millions of North Americans an excellent source of supplemental income, this is particularly important in an ambiguous economy. Believe it or not, the more the economy weakens, the faster your direct selling business can flourish.

Keep in mind that recessions force people to think outside the box, allowing them to look for alternative sources of income. If they are currently employed, they are worried about losing their jobs; if they are unemployed, they are looking for various ways to make an income without investing large sums of money. Friends and family who were not interested in your TIENS business last year, may start to show a keen desire in developing their own TIENS business. Contact them NOW!

Hello all TIENS Leaders and Distributors,

My name is Michael Huang. I am the new Office Administrator and will be responsible for the daily operations at TIENS North America. I am very excited and look forward to stepping into the New Year with all of you!

Please allow me to begin my brief introduction by thanking each of you for your commitment to TIENS throughout the past years and for your continued support in the years to come. We truly appreciate all the work that you have done.

Over the past 20 years, I have developed a diverse career background. My skills have been gained from various work experiences; some of my past roles include working as a sales representative, consultant, project manager and operations officer in a variety of industries such as retail, direct selling, telecommunications and in financial institutions. I have over three years experience with TIENS working at the TIENS China Headquarters, TIENS Europe and TIENS North America. I am deeply familiar with not just the TIENS business philosophy, but also many other business models adopted through the marketing of TIENS Global. I have learned plenty of valuable information at TIENS and look forward to sharing it with all of you to help you develop your business and expand your network.

I would like to welcome you to contact TIENS North America if you have any questions, proposals, or concerns in the coming year. I believe our TIENS team will keep the best form of communication with you to deliver strong support and a high quality of customer service.

We are currently faced with a tough global economic crisis, however, I am very confident that as long as we support and encourage each other to do our best, we can develop a strong business and prosperous tomorrow! I wish you and your families a Happy New Year!
