

Men In MLM

In a recent study by the Direct Selling Association, approximately 1/3 of direct sellers are men, however, the growth rate continues to increase by 30% each year. More and more men today are directly or indirectly venturing into the direct selling industry to avail the flexible income earning opportunity to supplement their incomes.

Even men who are already making a successful living, such as Montel Williams, are taking advantage of this wonderful opportunity. While women tend to dominate this industry, it is a proven fact that men can be just as successful as women at TIENS North America. As a matter of fact, some of our strongest leaders and

distributors are men. Although men and women may have different communication styles, both genders can be equally successful when it comes to selling TIENS health products and building teams. Network marketing is based on relationships and these relationships are what will help you to sell TIENS products and

develop a strong team. Relationships are about communication and connecting with others. For example, look for small-business owners who are putting all their hard-earned profits back into their business just to maintain stability. Compare their risks, responsibilities and returns to yours! TIENS North America

offers an abundance of diverse products and services that is changing men's attitude towards this business. High quality herbal supplements, cologne, exotic health beverages and bedding are opening the doors to a demographic that has been slow to recognize the potential of becoming a distributor with TIENS

North America. This wonderful opportunity could prove to be irresistible to any man with an adventurous spirit. Keep this in mind when you are building your team. Remember, that it isn't about age, the color of your skin, your culture, or your sex, it is about personality. The very same dynamic personality and drive for

success that you already possess will connect you with many others out there who share the same qualities.

Mr. Li Jinyuan's big heart and generosity has given all of us an opportunity to dedicate more love to the society in his annual TIENS Charity Day celebrated every year on the 18th of May.

Over the past 14 years, TIENS Group has donated a generous 1.4 Billion RMB (approximately 200 Million US) to various charities throughout the world. Mr. Li Jinyuan's benevolence should be an honest inspiration to all of us.

"While an enterprise is in its preliminary stage, it is the property of the owner; while the enterprise transforms into a multinational corporation, it should be the property of the society, the state and the people" ~ President Li Jinyuan
